Sri G. SIVAPPA.—What is the probable amount of expenditure you are going to incur by passing this order in favour of the officers ?

Sri T. CHANNIAH.—That cannot be made out.

Sri G. SIVAPPA.—Will the Government consider extending a few more facilities to the Non-Gazetted Officers such as supply of medicines and tonics and rendering surgical operations free ?

Sri T. CHANNIAH.—The suggestion will be considered if possible.

Sri G. SIVAPPA.—In the order, you have said that the term 'family' means the wife, legitimate children and step-children of a Government servant residing with and wholly dependent upon him. Is it not

Sri T. CHANNIAH.—No.

Sri P. R. RAMAIA.—Will it be possible for the Government to kindly consider the question of extending these amenities to retired officials ?

Sri T. CHANNIAH.—No.

Water Supply to Kadabanakatte.

Q.—282. Sri Mulka GOVINDA REDDY (Chitaldrug).—

Will the Government be pleased to state :—

(a) when the water supply scheme to Kadabanakatte, Chitaldrug Taluk was sanctioned ;

(b) what the estimate was ; and how the expenditure was proposed to be shared ;

(c) whether the work has been taken up ;

(d) if not, why it was not taken up and what the reasons for delay are ;

(e) the steps that the Government intend to take to punish the concerned officers ;

A.—Sri T. CHANNIAH (Minister for Public Health and Local Self-Government).—

(a) On 23rd February 1954.

(b) The total estimate for this work was Rs. 29,000 and the expenditure was proposed to be shared as follows :—

1. Planning Commission grant.	Rs. 10,000
2. Contribution by the State Government.	10,166
3. Contribution by the Local Body.	4,000
4. Contribution by the local efforts.	4,834

Total 29,000

(c) No.

(d) The Superintending Engineer, Sanitary Circle, after scrutiny of the estimate reports that the matter requires further examination and that the estimate requires revision.

(e) Does not arise.

Sri Mulka GOVINDA REDDY.—Was not an estimate for water supply to Kadabanakatte prepared by the concerned officers and scrutinised by the Superintending Engineer before it was sanctioned?

Sri T. CHANNIAH.—No. It was scrutinised by the Superintending Engineer before it was sent up for sanction.

Sri Mulka GOVINDA REDDY.—When were these estimates scrutinised and found wanting in certain respects by the Superintending Engineer?

Sri T. CHANNIAH.—The exact date is not known; perhaps in the month of April or May.

Sri Mulka GOVINDA REDDY.—How is it that though eight months have elapsed the scheme has not been taken up?

Sri T. CHANNIAH.—The Superintending Engineer, after inspecting the spot, found that the well if excavated at the place proposed would not yield the required quantity of water. He found that it would be not possible to supply 5,000 gallons per hour to that village if the well was excavated at the place. On that account he has suggested the revision of the estimate. He wished to make it sure that even during the summer the well proposed to be constructed would really yield 5,000 gallons per hour. Also in respect of pipes and other materials, he wanted to include the costs in the revised estimate. That also accounted for the increase in the estimated cost. Hence the delay.

Sri Mulka GOVINDA REDDY.—Has he prepared any revised estimate?

Sri T. CHANNIAH.—Not yet.

Sri Mulka GOVINDA REDDY.—Will it enhance the cost of this scheme?

Sri T. CHANNIAH.—It will be known only after the revised estimate is prepared. It is not possible to say that now.

Sri Mulka GOVINDA REDDY.—Will the Government take care to see that inordinate delay is not caused in completing, this Sir?

Sri T. CHANNIAH.—Yes.
